Pradeep Kumar Ramadoss

Senior Business Analyst | PSM | Certified Dataiku Designer
United States

Summary

With over 12 years of experience across Citi, Standard Chartered, and Wells Fargo, I specialize in driving large-scale transformation, data-driven decision-making, and process optimization across global banking environments. My strength lies in bridging the gap between business and technology — translating complex requirements into actionable solutions that deliver measurable business value.

At Citi, I led exchange-fee reconciliation and regulatory compliance (CBOT, NYMEX, CME) initiatives, optimizing SmartStream TLM logic and ISO 20022 message validation. At Standard Chartered, I spearheaded a Hadoop–Dataiku–Power BI data-strategy program, centralizing enterprise data from Pega, ServiceNow, and TeamConnect to enable analytics, automation, and AI readiness. I've also delivered reporting automation (Python, VBA, Power Query) that cut turnaround times by 55% and earned multiple GEM and R&R awards for innovation and efficiency.

I bring a balanced mix of business analysis, data analytics, and project governance, with hands-on experience in SQL, Dataiku, Power BI, Jira, Confluence, and ServiceNow GRC. Skilled in Agile/Scrum, I facilitate sprint ceremonies, backlog refinement, and UAT management to ensure quality delivery and stakeholder alignment.

Key Highlights:

12+ years in business analysis, risk & control, data strategy, and automation

Expertise in Dataiku, Power BI, SQL, Hadoop, and regulatory operations

Proven success in ETL, reconciliation, financial modeling, and automation

Recognized with multiple awards for innovation and process excellence

I'm passionate about data-driven transformation, regulatory compliance, and using AI-powered automation to simplify complex operations — driving organizations toward smarter, scalable, and future-ready outcomes.

Experience

Citi

Senior Business System Analyst - Change Management

April 2025 - Present (9 months)
